Hard Skill

- Development:
 - Python.
 - JavaScript / NodeJS.
- Web Design
- Front End Coding
- Problem-Solving
- Frame Works:
 - React JS, Next JS, Angular.
- DevOps:
 - Git, Release Management, Azure DevOps, GitHub, BitBucket.
- DataBase:
 - MSSQL, MongoDB, CosmosDB.
- Reporting:
 - Power BI Desktop, Report builder.
- Cloud:
 - Microsoft Azure.
- Certifications:
 - Azure AZ-900, AZ-104.
 - [GCP 24x badges](#).

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

- PES Institute of Technology and Management
Bachelor of Engineering
Completed in 2022

About Me

Enthusiastic and highly motivated IT professional seeking a challenging role in a reputable organization to leverage my technical skills for the organization's growth and success. In addition to my technical skills, I am also an excellent communicator and team player. I believe that effective communication is the key to successful project management and collaboration, and I have honed my interpersonal skills through collaborating with colleagues and clients alike.

Professional Experience

Eton Solutions | Software Engineer 2023 – Present

Key responsibilities:

- Cloud Platform Proficiency: Expertise in Azure Functions, Logic Apps, APIM, and Azure SQL Databases, leveraging extensive experience with Storage accounts, Azure OpenAI, Virtual Machines, Azure Cosmos DB, Application Gateways, Key Vaults, App Registrations, Elastic Pools, and Azure Data Factories.
- Implementation & Management: Successfully deploying and managing Azure Functions, optimizing Logic Apps, configuring APIM for efficient API management, designing and maintaining Azure SQL Databases, managing Storage accounts, leveraging Azure OpenAI for AI integration, deploying and managing Virtual Machines, implementing and optimizing Azure Cosmos DB, configuring Application Gateways, managing secrets with Key Vaults and App Registrations, utilizing Elastic Pools, and orchestrating data workflows using Azure Data Factories.
- Production Support & Monitoring: Ensuring 24x7 availability, resolving Power BI and Portal-related production issues, and proactively monitoring Azure health alerts for databases, taking necessary measures to maintain system health.

Eton Solutions | Trainee Engineer 2022 – 2023

Key responsibilities:

- Orchestrated deployments for QA, production, and Power BI, automating configurations and ensuring round-the-clock availability while proactively resolving Power BI and Portal-related issues.

Achievements

2023 Performer of the Quarter award for Q1 2023 at Eton Solutions

2022 – 2023 Microsoft Certified: Azure Administrator Associate, Microsoft Azure Fundamentals
