OBJECTIVE

Software Engineer with 2+ years of experience in NodeJs, Azure Cloud, Azure DevOps, Python, React, Angular, NextJS, MS SQL, Power BI seeking full-time in the back-end, full-stack, DevOps roles.

EDUCATION

Bachelor of Computer Science, PES Institue of Technology and Management   2018 - 2022

SKILLS

Technical Skills	Node.js, JavaScript, Next.js, React.js, Git, Azure DevOps, Python, Angular,- Tailwind CSS, MSSQL, Power BI, Microsoft Azure, MongoDB, CosmosDB, Logic Apps, Azure Functions, GitHub, Web Applications, REST APIs, Version Control, SQL, Bootstrap, TypeScript, HTML, Databases, Azure Active Directory, CI/CD.
Soft Skills	Demonstrated proficiency in Project Management, Troubleshooting, and Management, with a collaborative approach to teamwork
Domain Knowledge	In-depth understanding of domains such as Finance, FinTech, CRM, and Accounting, contributing to a holistic perspective on project development and problem-solving

EXPERIENCE

Software Engineer   Jun 2023 - Present
Eton Solutions   *Banglore, IN*

- Led SQL Server Migration to Elastic Pool which led to a 40% improvement in the Performance of the system and 30% cost reduction.
- Developed EtonGPT an OpenAI chatbot that can extract Market data, Insert/Update DB data, and Forex/Exchange Integration using Public APIs, Web Scrap, and Custom API for Web Interact.

Trainee Engineer   Aug 2022 - Jun 2023
Eton Solutions   *Banglore, IN*

- Achieved 30% improvement in API response time using NodeJs, Azure Functions, and APIM skills.
- Led Power BI initiatives, optimizing processes for a 60% faster deployment. Enhanced efficiency and agility, enabling quicker and more effective data-driven decision-making.
- Developed Azure Alert API which will send the email to the DevOps team to get notified about the Azure resource utilization using Logic Apps, NodeJS, and Function Apps.
- Delivered more than 30^+ New Instances of AtlasFive (Eton Product).

PROJECTS

Genius AI Tool. Innovative leader in the development of Genius, a revolutionary SAAS web application powered by Next.js, React, Node.js, Prisma, Tailwind CSS, OpenAI, Git, Stripe, and SQL. Successfully launched a user-friendly platform offering chat completion, code generation, image, audio, and video creation. Orchestrated a strategic pricing model, securing a 90% discount for the Pro version and ensuring seamless user experience with Stripe integration.!

Cringe AI. I spearheaded the development of Cringe AI, an innovative project leveraging OpenAI technology to generate motivational cringe quotes, injecting humor into traditional inspiration. Powered by Next.js, React.js, Tailwind CSS, OpenAI API, and Node.js, Cringe AI delivers seamless user experiences with lightning-fast performance on Vercel. With a mission to bring smiles and motivation, the project aims to uplift spirits through quirky humor while continuously evolving to enhance user engagement and satisfaction.[(Try it here)](#)

Short Project Title. Developed the AR Wears e-commerce project, leveraging Next.js, React, and Tailwind CSS, demonstrating a steadfast dedication to innovation in technology. Integrated Next.js and React seamlessly to create a scalable frontend, complemented by Tailwind CSS for swift and intuitive design implementation. Looking forward to the project's evolution, committed to exceeding expectations and delivering exceptional shopping experiences. Committed to continuous skill enhancement and project expansion to foster sustained growth and success.

EXTRA-CURRICULAR ACTIVITIES

- Served as the Chairman of IEEE Mangalore Subdivision during my engineering tenure, demonstrating leadership and organizational skills. Led various initiatives and activities aimed at fostering technical growth and innovation within the IEEE community.

- Engaged in active participation within Toastmasters International, honing public speaking and leadership skills. Regularly attended meetings, delivered speeches, and took on leadership roles, contributing to personal development and fostering effective communication abilities.

- Co-founded Yummy Foods, a cooking YouTube channel, showcasing culinary creativity and passion for gastronomy. Collaborated on content creation, recipe development, and video production, engaging with a diverse audience and promoting culinary exploration and appreciation.
